

MUHAMMAD JAWAD AHSAN

AI Intern | Machine Learning & NLP Enthusiast

Lahore, Punjab, Pakistan | +92 315 7652279 | m.jawadahs@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

AI/Machine Learning practitioner pursuing a BS in Artificial Intelligence, with hands-on experience building and deploying end-to-end AI systems including recommendation engines, chatbots, predictive models, and full-stack web applications. Skilled in Python, FastAPI, NLP, and modern generative AI tooling. Seeking an internship to apply strong problem-solving and software engineering skills to real-world AI products.

PROJECTS

Movie Recommendation System with TMDb Integration — *Python, Pandas, NumPy, Scikit-learn, Streamlit*

- Built a content-based movie recommendation engine using cosine similarity on TMDb movie metadata (5,000+ titles).
- Engineered a full data preprocessing and feature extraction pipeline, serializing processed datasets and similarity matrices with Pickle for fast inference.

Portfolio Website — *Next.js, React, Tailwind CSS, MDX, FastAPI*

- Developed a responsive, SEO-optimized, dark-mode-first personal portfolio using Next.js and Tailwind CSS to showcase AI/ML and software projects.
- Implemented MDX-based content management for blog posts and project pages, including a gallery lightbox and service pages.
- Built and integrated a FastAPI backend to power a contact form with automated email delivery; deployed via Vercel and Render.

AI & ML Project — *Python, NLP, Deep Learning, Flask, OpenCV*

- Designed and built a organized portfolio of + AI/ML projects spanning chatbots, predictive modeling, computer vision, and classic AI search algorithms.
- Delivered NLP applications including a library assistant chatbot, a general-purpose conversational chatbot, and a text classification model.

TECHNICAL SKILLS

Languages & Core: Python (primary), SQL

Machine Learning & AI: Machine Learning, Deep Learning, Predictive Modeling, Feature Engineering, NLP, Sentiment Analysis, Computer Vision, RAG Systems, Chatbot Development, TensorFlow, PyTorch, OpenCV, Scikit-learn

Generative AI: Prompt Engineering, OpenAI API, Gemini

Web & APIs: FastAPI, Flask, REST API Development, Backend Integration, Next.js

Data & Visualization: Data Preprocessing, Data Pipelines, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)

Databases & Tools: PostgreSQL, MySQL, Docker, Git, GitHub

EDUCATION

Bachelor of Science in Artificial Intelligence
